STRIKE AT BELLEVERNON IS NARROWLY AVERTED

resideni Feehan Opposes Passing of Resolution By Miners

S HELD OFF FEW DAYS

ill be Taken Up by Na- iional Board During Next Week

Had it not been for President Feehan of this district of Miners at the convention yesterday at Pittsburg, a strike of no small proportions would likely have been precipitated at Belle ernon where there has been some rouble over a release which the coal ompany desires for the miners to ign.

A resolution, drawn up by the min- rs of that town, was presented to he convention asking that body for uthority to suspend work unless a ertain stipulation in the operators' ontract was eliminated.

The secretary read the resolution as llows: "Resolved, That the dis- rict executive board authorize a sus- ension of work that the mines of the lonongahela River Coal company un- ess the forms for release, which arents of sons employed in the mines re requested to sign to retain or ob- ain employment are withdrawn."

The matter was received with much ver by the majority of the miners resident Feehan opposed the passage f the resolution, but seeing senti- ent of the miners he arose and ex- lained to the delegates that the reso- ition should be more earnestly and eeply considered before acted upon. e suggested that the resolution be eferred to the international board hich convenes at Indianapolis next hursday. This was unanimously greed upon.

Some of the remarks of Mr. Fee- an were resented by a delegate from elle Vernon, but did not have any- hing of consequence to say of the atter.

A resolution was introduced advo- ating the abolishing of the state con- abulary, being stated that that body as of no use to the miners or to the tate and was a source of unnecessary xpense.

The black powder argument was the ubject for heated debate. Nearly he entire afternoon was devoted to his one phase. The final action was o have a committee appointed consist- ng of President Feehan, Vice Presi- ent Dagger and Secretary Donovan o go to Harrisburg to confer with Representative Bentley on the atter. He was the one to introduce he measure.

ELDORA MAN IS BADLY INJURED

John Walsh a driver at the Black Diamond mines was badly hurt while t work yesterday. The man was riving a trip from an entry of the ain entry, when it gained too much omentum, and he being unable o stop it was thrown down and ragged some distance. He was cut nd bruised about the body. The in- uries were dressed by Dr. Hays and he man removed to his home in El- ora.

Suit Against Borough Fixed

Fayette City Releases Claim Aaginst Woman and Affair Is Settled.

In the cases of Ella C. Reeves and husband against Fayette City borough, in the Fayette county courts for more than a year and passed upon by two juries, the defendants have ended the dispute by releasing the plaintiffs from any claims for paving and street repair work on second street. Following the last trial the plaintiffs moved for another hearing and two weeks ago the court made an order stating that a new trial would be granted unless the defendant borough released the plaintiffs from claims. Compliance with this order ends the dispute.

Courtney Man Sues for Damages for Death of Son

The statement of claim has been filed in the suit of William Dersam against the Pennsylvania Railroad company for $10,000 damages. The claim for damages is made by reason of the plaintiff's son, John Dersam killed by being struck by a train at the Courtney station crossing, on October 16, 1908.

Negligence on the part of the company is alleged, it being averred that the whistle was not blown for the crossing, nor the bell rung. The plaintiff avers his son supported him, and by reason of his death he has been deprived of his support. Vernon Hazzard represents the plaintiff.

Boxing Match at Monessen

On Saturday night at Monessen there will be a boxing match between Young Duffy of McKeesport and Young Britt at the Monessen Opera House. There will be good preliminaries. Both Duffy and Britt are good men and it wil mean a nice match. The show will begin at 9 o'clock.

SHE TOOK A CLOCK

Mrs. Wm. Huston of Charleroi took the fine 8-day clock, given by J. W. McKean at his auction sale last night, as a present to those attending his sale; and again tonight some one will be made happy. The sale starts at 7:30 and everybody is invited. Seats are reserved for ladies, and each night of his sale his room has been packed with both men and women who are taking advantage of the low price at which the goods are being sold.

NO LICENSE FOR SIPE

Private Detectives Come in For Scoring at Hands of Judges

GO BEYOND THEIR POWER

In an opinion handed down by the court last evening refusing the application of W. H. Sipe for a private detective's license the court appears to have sounded the death knell of the private detective agency in this county. There was no testimony of any kind against the fitness of the ex-coroner, and the applicant has to bear the blunt of the blow that is directed against the private detective agency.

Never before has the local court had to pass upon the law governing the private detective appointment, but this proceeding brought out the fact that all private detectives in this county are going beyond what the law provides in their efforts to bring prosecutions from which they will receive some compensation.

The counsel for the Citizens' league held that the law did not provide that private detectives in cases where they had been so retained; that it was not the private detective's duty to break in on the duties of regularly elected officers, upon the private detective's own responsibility.

Judge McIlvaine remarked yesterday afternoon, following the handing down of the decision: "I have never known an incident since I have been on the bench where a private detective was of any service to the community. I believe that this matter of them being prosecutors in so many cases and 'butting in' on regular elected officers, is all wrong."

SECRET SERVICE MAN WORKING HARD

Trying to Learn Something of Counterfeiters in This Vicinity

Brownsville, Pa., March 23. John E. Washer, United States secret service agent for the western district of Pennsylvania arrived in Brownsville yesterday and began an investigation of the counterfeit money case in which Wassel and Jake Usnak, of Pittsburg, were arrested Saturday evening by Chief of Police Patterson.

In the afternoon the government detective made a trip to California and other places in the valley, collecting pieces of spurious coin which had been passed on various business men, mostly foreigners. He refused to divulge any information as to whether he had a clue to the plant where the coins were manufactured and Chief Patterson knew of no new developments.

The prisoners are still held at the the borough lockup here, but will be taken to Pittsburg tomorrow morning. The local police believe a strong case has been worked up against the men, who are of Russian birth.

Who's Who at Roscoe

Roscoe boro has eight councilmen, two presidents of council, two street commissioners. The trouble arises on the appointment of a citizen to a vacant seat in the body and an alleged illegal organization. The two factions are strongly lined up.

At the last election, through a mistake in the printing of the official ballots, two councilmen were elected instead of three. When the meeting was held for re-organization, the new council elected a citizen to fill the vacancy. This it is claimed is illegal because he was elected before the body organized. Again it is said the oath of office was not administered properly.

The affair is attracting much attention and the outcome is eagerly awaited.—X.

MINERS ARE BACK AT WORK

Three Hundred Men Out at Albany Mines Go Back

TO WORK YESTERDAY

The trouble which has been existant at the Albany mines near Brownsville have been settled and 300 miners returned to work yesterday. A meeting was held in Brownsville Sunday afternoon at which a movement was started which ended in the miners going back to work. A committee was appointed to confer with Superintendent William Griffith to ascertain whether he was willing to have them go back. He told them he was.

The men asked that they be paid the run of the mine rate for all work done, claiming that the use of carbonite and mauserite crushes the coal to such an extent that when it passes the screen the amount of coal acceptable for shipment is reduced to such an extent as to practically make a reduction in wages amounting to about eight per cent.

No action was taken looking to settlement of the difficulty between the operators and the men of the People's mine, but John Laverick was named as a delegate to attend the district convention in Pittsburg and lay before the United Mine workers the conditions as they exist. The miners at Brownsville claim to have the support of the miner's union officials in their stand.

SUIT AGAINST COAL COMPANY

Damages to the Extent of $20,000 Asked for Illegal Act

Charles W. Teeple, of Carroll township, through his attorney, Irwin and Wiley, has entered suit against the Pittsburg and Westmoreland Coal company to recover $20,000 damages for undermining his property.

The plaintiff's property adjourns the borough of Donora, and it is averred that the defendant compay in conducting its mining operations failed to leave sufficient support for the overlying strata, that as a consequence the foundation and walls of his house have cracked and rendered it unsafe for habitation. The barn has also been damaged and made unsafe for use, while a never failing spring of water has been caused to disappear.

MR. TENER IN FAVOR OF MOFFITT

Washington, D. C., March 23.—Congressman John K. Tener in speaking of the candidates who are aspiring for the nomination of county recorder in Washington county, Pennsylvania, says: "I am always opposed to office-making and bossism in politics but I wish to say that my home town of Charleroi has in the past fared badly when it came to the distribution of political patronage both from my predecessors and myself.

"Charleroi has never had the honor of having either an elective county office nor an appointive state or federal position for any of her citizens. For these reasons, as well as for the strong claims advanced by John H. Moffitt in his letter of announcement, I feel inclined to support his candidacy for the nomination of county recorder."

The Ladies Aid of the Lutheran church will give a skating party at the rink on Wednesday, March 24. Afternoon from 4 to 6 for children, 15 cents. Evening 7 to 10:30, 25 cents. Lunch will be served free to those not skating. Tickets will be sold at the door. 183t2

TRIES TO KILL SELF FOR SECOND TIME IN TEN DAYS

Local Man Wildly Raves in Lockup During Night of Confinement

ATTEMPT TO CUT THROAT

Manufactures Instrument from Piece of Sheet Iron Wrenched from Bunk

This morning Harry Lucas, a colored man, who has twice tried to commit suicide in the past two weeks, it is thought from the effects of cocaine, was sent away from the town, stated going on his way to Philadelphia. It is hoped in getting the man away from his former associates that he will become more rational, and be able to stop the use of the drug, if that is what is causing his trouble.

Lucas was taken up yesterday afternoon by Officer McEldowney at about 1 o'clock in the afternoon. The man told him that he had taken something and wanted to go to the lockup to die. He was placed in a cell and left there. At about 7 o'clock last night it was discovered that he was trying to commit self destruction by cutting his throat, having succeeded in the time that he was in the place in tearing a strip of sheet iron off his bunk, and having sharpened a side to a knife-like edge. The instrument was taken from him by Chief of Police Albright.

All night long he raved, being watched however that he did not in some other way succeed in his desir to kill himself. This morning Luca was rational enough and was willin to leave town. He was placed on a Pittsburg car by Chief of Police Albright.

On Sunday night a week ago Lucas was picked up on Fifth street, in practically the same manner. He spent the night raving in his cell, and tried to hang himself, by fastening his coat to a bar in his cell, and then tying it around his neck. It seems to be his only thought when in his ravings to commit self destruction. When in that condition he will pay no attention to any one except Chief of Police Albright and his former employer, Thomas Younger.

It is said that cocaine is the cause of the man's condition. It is alleged that several colored people of this place use the stuff, and that considerable trouble is caused from it. It is understood that they do not get it in Charleroi however, although one is said to have made a proposition to a local druggist to sell the stuff on commission.

Fire Cause of an Increased Force

Webb, Herron Plant Takes Over Contracts of Capell Company.

As a result of the fire at Monongahela during a night, the latter part of last week, by which the Capell Fan and Engineering company's plant was damaged, an extra force has been added to the Herron, Webb Machine company, where many of the contracts are being filled. The force is working day and night.

The Herron Webb people are installing some new machinery, and within a week expect to have things in the best of shape for a long and continuous run, and will quickly fill the contracts, re-let to them by the Capel Fan and Engineering company.

COCAINE FIENDS IN THIS PLACE

Said Some Colored Men Are Using Drug to Great Excess

Trouble is occasionally caused in this place it is said through the use of cocaine and it is understood that the shooting affray on the railroad Saturday night was caused through the drug. It is said that recently a colored man of this place went into a local drug store and made the proposition to the proprietor that if he would furnish cocaine, he would sell it for him on a commission. The druggist absolutely refused to accept or consider the proposition, and threatened the man with arrest. He made his exit, and has not been seen since. The above would go to show that some colored men are users of the drug in this town, but evidently have trouble in securing it, hence the proposition. It is up to the officers of the valley to watch the stores carefully and ascertain which is handling the stuff to a great extent.

SPEED LAWS NOT TO BE ENFORCED IN CONTEST

Inquiries are now being received from all parts of Western Pennsylvania, Eastern Ohio and West Virginia requesting further information concerning the automobile three-days endurance contest of the Pittsburg Chronicle Telegraph and Gazette Times to begin and end in Pittsburg, April 28, 29 and 30. The laying out of the route is now about completed and word is being received daily from the authorities in charge of the surrounding towns that the towns will be thrown wide open to the contestants the day they pass through. Speed laws will not be forced on this particular occasion so as to give the driver who happens to lose time a chance to make up between checking stations.

In a Queer Mixup.

It appears that the Charleroi borough has got into a bad mixup, and all from a lack of general knowledge of the Constitution of Pennsylvania. This state has a statute that says plainly that voting for offices of the borough shall be by voice, yet in the past this borough has elected them by secret ballot. As a result there are now two attorneys of this place who claim themselves to be legally elected solicitors, and doubtless both will protest their election as being valid. What the result will be cannot be conjectured, for the case has many technicalities, which can only be solved by a thorough hearing and reading of the law bearing on all phases.

Exterminating Bad Band.

It is to be hoped that the band of counterfeiters that has been flooding this part of the country with spurious coin in the past few weeks can be broken up and the ones secured who have thus been defrauding the people. It is a well known fact that there was formerly in this section a well organized band for the making of bad money, which they would have passed off in Charleroi and elsewhere, but the present organization is hardly the same. Nevertheless the police officials should make thorough investigations in their separate precincts, and exert every effort to locate the daring band.

Better Organization

Nothing could please more those who understand the situation thoroughly than to have the miner's districts divided as suggested by President Feehan of this district. "In union there is strength," is the well known motto of all labor organizations, then why would not the same apply, in the following terms, "in organization there is strength." In this case it would, if in no other. The locals would be given the power to arbitrate differences themselves, and thus be spared the expense incurred under the present mode of sending delegates to the district President or having Board Members present at their meetings. The miners would be greatly benefitted by the sub-division.

Electric Sparks

Inaugurations and presidents are only incidents in the life of the Secretary.

The suffragette movement is merely an illustration to womans unwomanity to man.

The President shows a commendable disinclination to be side-tracked by the Stand-pat express.

In New York they are using babies as collateral for loans. Another argument against race suicide.

Do you remember that a year ago there were many who believed that Mr. Taft wouldn't be nominated?

Since the beginning of the new Administration our hens are laying twice as well as formerly.

Vulgarity is amusing only to the vulgar and they are not worth amusing.

Debts are saddled on posterity because posterity is not on the spot to object.

An American bride of an Englishman finds is hard to keep warm in London. Why not put on a few more diamonds?

There is some satisfaction that the government escaped from the Standard Oil trial without being fined $29,000,000.

The New York blind man who carried one child and led two others down the stairs of a burning building furnished an evidence of affliction serving a useful purpose. He probably made better success of going through familiar building in the smoke than a sighted person could make.

At the same time we have not heard of any loud and insistent demand from the public for another steel trust. The people at large can by a severe exercise of memory recall that in several cases where a business interest has been consolidated into two combinations the result followed that they swallowed each other.

Of course, when spring came snow had to appear out in Yellowstone Park. But as well-founded tradition gives us an "April cleaner" it may be just as well that vegetation is not too much encouraged in advance. The average date of last killing frost in this latitude is May 5th to 10th.

Those who are trying to abolish that famous line known as Mason's and Dixon's might find it wise to call in the expert aid of fashion-makers, who are now abolishing the older and more popular waist line.

Mr. E. H. Harriman having been advised to adopt plain and quiet living for the benefit of his health it is hoped that he will cut down his diet to swallowing not more than one railroad per meal.

A Cowboy's Girl.

"A Cowboy's Girl" which comes to the Cozy theatre, Mat. [illegible] one of the few western plays ever written by a man who thoroughly understood what he was writing about. Mr. Pierce F. Benton, the author of "A Cowboy's Girl," spent a great portion of his life in the cattle country of Texas and knows the old time cattleman, his ways, expressions, likes and dislikes, as well as he knows the alphabet. These little things which are lacking in most plays of the west are strongly emphasized in "A Cowboy's Girl" and add much to the realism of the production.

COUNCIL TO MEET TONIGHT

It is thought that the resolution calling for the auditing of the books of the borough the first of March instead of the first of April, will be passed at the meeting of council tonight. The change in the auditing would be very agreeable both to the auditors and to the members of council.

It is likely that the matter of the Holland bill for alien taxing will come up and a motion be put through for the advocating of the bill. Among other important matters that are on the table are the ordinances for the governing of the sale of milk in the borough, and the grade for the sidewalk on Lincoln avenue between First and Second streets.

Speers

Speers, March 23.—The little six year old daughter of Mr. and Mrs. Henry Lewis of North Belle Vernon, died Thursday of membraneous croup, after an illness of only a few days. Interment took place Saturday.

Arthur E. Warrenstord, of Belle Vernon, was in Uniontown, serving on the jury this week.

J. C. Bernhard, of Charleroi was a caller here last week.

The result of the revival services recently closed at the M. E. church here is very satisfactory to the people of this little town, and to the pastor, whose untiring efforts were responsible for the great interest manifested during the four weeks services. Every night, with one exception, this brilliant young minister preached to crowds of attentive listeners, and the series of meetings were the direct cause of a wonderfully increased attendance at Sunday school services, also. The Rev. Mr. Seiter is justly proud of his work, and the townspeople are unanimous in their praise of the unprecedented achievements made by the popular young minister of "The Little Church on the Hill."

SIGNIFICANCE TO MOVEMENT

George Jenkins a former county surveyor, with a force of men is today at work surveying a portion of the road between Monongahela and Finleyville, and it is thought that special significance is attached to his movements. It is thought that Mr. Jenkins is working for petitioners for a new and improved highway between these two towns and his presence there is a suggestion that the wish of the petitioners is to be fulfilled.

MEETING AT FIRST PRESBYTERIAN CHURCH

Beginning Wednesday of this week and continuing until Friday week there will be services at the First Presbyterian church. Visiting ministers will be present during that time, and assist.

GERMS IN HER SYSTEM

Every Woman Should Read This.

The number of diseases peculiar to woman is such that we believe this space would hardly contain a mere mention of their names, and it is a fact that most of these diseases are of a catarrhal nature. A woman cannot be well if there is a trace of the catarrhal germs in her system. Some women think there is no help for them. We positively declare this to be a mistaken idea. We are so sure of this that we offer to supply medicine absolutely free of all costs in every instance where it fails to give entire satisfaction or does not substantiate our claims. With this understanding, no woman should hesitate to believe our honesty of purpose, or hesitate to put our claims to a test. There is only one way to cure Catarrh. That way is through the blood.

You my use all the snuffs, douches or like remedies for years without getting more than temporary relief at best. Catarrh is caused by a germ. That germs are carried by the blood to the innermost part of the system until the mucous membrane is broken, irritation and inflammation produced, and a flow of mucous results, and you can probably realize how silly it is to attempt to cure such an ailment unless you take a medicine that follows the same course as the germ or parasite.

Rexall Mucu-Tone is scientifically prepared from the prescription of an eminent physician who for thirty years made his specialty Catarrh, and with this medicine he averaged 98 per cent. of cures where it was employed. No other remedy is so properly designed for the ailments of woman. It will purify and enrich the blood, stop mucous dicharge, destroy all germ matter, remove all impurities from the system, soothe, heal and strengthen the mucous tissues and bring about a good feeling of health and strength.

We want you to try Rexall Mucu-Tone on our guarantee. If you are not benefitted, or for any reason not satisfied, simply tell us and we will hand back your money. Rexall Mucu-Tone comes in two sizes, 50c and $1.00. John W. Carroll, Charleroi, Pa.

TRIKE AT BELLEVERNON IS NARROWLY AVERTED

resident Feehan Opposes Passing of Resolution By Miners

S HELD OFF FEW DAYS

Will be Taken Up by National Board During Next Week

Had it not been for President Feehan of this district of Miners at the convention yesterday at Pittsburg, a strike of no small proportions would likely have been precipitated at Belle Vernon where there has been some trouble over a release which the coal company desires for the miners to sign.

A resolution, drawn up by the miners of that town, was presented to the convention asking that body for authority to suspend work unless a certain stipulation in the operators' contract was eliminated.

The secretary read the resolution as follows: "Resolved, That the district executive board authorize a suspension of work that the mines of the Monongahela River Coal company unless the forms for release, which parents of sons employed in the mines are requested to sign to retain their employment are withdrawn."

The matter was received with much fervor by the majority of the miners. President Feehan opposed the passage of the resolution, but seeing sentiment of the miners he arose and explained to the delegates that the resolution should be more earnestly and deeply considered before acted upon. He suggested that the resolution be referred to the International board which convenes at Indianapolis next Thursday. This was unanimously agreed upon.

Some of the remarks of Mr. Feehan were resented by a delegate from Belle Vernon, but did not have anything of consequence to say of the matter.

A resolution was introduced advocating the abolishing of the state constabulary, being stated that that body was of no use to the miners or to the state and was a source of unnecessary expense.

The black powder argument was the subject for heated debate. Nearly the entire afternoon was devoted to this one phase. The final action was to have a committee appointed consisting of President Feehan, Vice President Dagger and Secretary Donovan to go to Harrisburg to confer with Representative Bentley on the matter. He was the one to introduce the measure.

ELDORA MAN IS BADLY INJURED

John Walsh a driver at the Black Diamond mines was badly hurt while at work yesterday. The man was driving a trip from an entry of the main entry, when it gained too much momentum, and he being unable to stop it was thrown down and dragged some distance. He was cut and bruised about the body. The injuries were dressed by Dr. Hays and he was removed to his home in Eldora.

Suit Against Borough Fixed

Fayette City Releases Claim Aaginst Woman and Affair Is Settled.

In the cases of Ella C. Reeves and husband against Fayette City borough, in the Fayette county courts for more than a year and passed upon by two juries, the defendants have ended the dispute by releasing the plaintiffs from any claims for paving and street repair work on second street. Following the last trial the plaintiffs moved for another hearing and two weeks ago the court made an order stating that a new trial would be granted unless the defendant borough released the plaintiffs from claims. Compliance with this order ends the dispute.

Courtney Man Sues for Damages for Death of Son

The statement of claim has been filed in the suit of William Hersom against the Pennsylvania Railroad company for $10,000 damages. The claim for damages is made by reason of the plaintiff's son, John Hersom, killed by being struck by a train at the Courtney station crossing, on October 16, 1908.

Negligence on the part of the company is alleged, it being averred that the whistle was not blown for the crossing, nor the bell rung. The plaintiff avers his son supported him, and by reason of his death he has been deprived of his support. Vernon Hazzard represents the plaintiff.

NO LICENSE FOR SIPE

Private Detectives Come in For Scoring at Hands of Judges

GO BEYOND THEIR POWER

In an opinion handed down by the court last evening refusing the application of W. H. Sipe for a private detective's license the court appears to have sounded the death knell of the private detective agency in this county. There was no testimony of any kind against the fitness of the ex-coroner, and the applicant has to bear the blunt of the blow that is directed against the private detective agency.

Never before has the local court had to pass upon the law governing the private detective appointment, but this proceeding brought out the fact that all private detectives in this county are going beyond what the law provides in their efforts to bring prosecutions from which they will receive some compensation.

The counsel for the Citizens' league held that the law did not provide that private detectives in cases where they had been so retained; that it was not the private detective's duty to break in on the duties of regularly elected officers, upon the private detective's own responsibility.

Judge McIlvaine remarked yesterday afternoon, following the handing down of the decision: "I have never known an incident, since I have been on the bench where a private detective was of any service to the community. I believe that this matter of them being prosecutors in so many cases and 'butting in' on regular elected officers, is all wrong."

SECRET SERVICE MAN WORKING HARD

Trying to Learn Something of Counterfeiters in This Vicinity

Brownsville, Pa., March 23.—John E. Wasner, United States secret service agent for the western district of Pennsylvania arrived in Brownsville yesterday and began an investigation of the counterfeit money case in which Wassel and Jake Usnak, of Pittsburg, were arrested Saturday evening by Chief of Police Patterson.

In the afternoon the government detective made a trip to California and other places in the valley, collecting pieces of spurious coin which had been passed on various business men, mostly foreigners. He refused to divulge any information as to whether he had a clue to the plant where the coins were manufactured and Chief Patterson knew of no new developments.

The prisoners are still held at the borough lockup here, but will be taken to Pittsburg tomorrow morning. The local police believe a strong case has been worked up against the men, who are of Russian birth.

Who's Who at Roscoe

Roscoe boro has eight councilmen, two presidents of council, two street commissioners. The trouble hinges on the appointment of a citizen to a vacant seat in the body and an alleged illegal organization. The two factions are strongly lined up.

At the last election, through a mistake in the printing of the official ballots, two councilmen were elected instead of three. When the meeting was held for re-organization, the new council elected a citizen to fill the vacancy. This it is claimed is illegal because he was elected before the body organized. Again it is said the oath of office was not administered properly.

The affair is attracting much attention and the outcome is eagerly awaited.—X.

MINERS ARE BACK AT WORK

Three Hundred Men Out at Albany Mines Go Back

TO WORK YESTERDAY

The trouble which has been existent at the Albany mines near Brownsville have been settled and 300 miners returned to work yesterday. A meeting was held in Brownsville Sunday afternoon at which a movement was started which ended in the miners going back to work. A committee was appointed to confer with Superintendent William Griffith to ascertain whether he was willing to have them go back. He told them he was.

The men asked that they be paid the run of the mine rate for all work done, claiming that the use of carbonite and mauserite crushes the coal to such an extent that when it passes the screen the amount of coal acceptable for shipment is reduced to such an extent as to practically make a reduction in wages amounting to about eight per cent

No action was taken looking to settlement of the difficulty between the operators and the men of the People's mine, but John Laverick was named as a delegate to attend the district convention in Pittsburg and lay before the United Mine workers the conditions as they exist. The miners at Brownsville claim to have the support of the miners' union officials in their stand.

SUIT AGAINST COAL COMPANY

Damages to the Extent of $20,000 Asked for Illegal Act

Charles W. Teeple, of Carroll township, through his attorney, Irwin and Wiley, has entered suit against the Pittsburg and Westmoreland Coal company to recover $20,000 damages for undermining his property.

The plaintiff's property adjourns the borough of Donora, and it is averred that the defendant compay in conducting its mining operations failed to leave sufficient support for the overlying strata, that as a consequence the foundation and walls of his house have cracked and rendered it unsafe for habitation. The barn has also been damaged and made unsafe for use, while a never failing spring of water has been caused to disappear.

MR. TENER IN FAVOR OF MOFFITT

Washington, D. C., March 23.—Congressman John K. Tener in speaking of the candidates who are aspiring for the nomination of county recorder in Washington county, Pennsylvania, says: "I am always opposed to slate-making and bossism in politics but I wish to say that my home town of Charleroi has in the past fared badly when it came to the distribution of political patronage both from my predecessors and myself.

"Charleroi has never had the honor of having either an elective county office nor an appointive state or federal position for any of her citizens. For these reasons, as well as for the strong claims advanced by John H. Moffitt in his letter of announcement, I feel inclined to support his candidacy for the nomination of county recorder."

The Ladies Aid of the Lutheran church will give a skating party at the rink on Wednesday, March 24. Afternoon from 4 to 6 for children, 15 cents. Evening 7 to 10:30, 25 cents. Lunch will be served free to those not skating. Tickets will be sold at the door. 183tf

TRIES TO KILL SELF FOR SECOND TIME IN TEN DAYS

Local Man Wildly Raves in Lockup During Night of Confinement

ATTEMPT TO CUT THROAT

Manufactures Instrument from Piece of Sheet Iron Wrenched from Bunk

This morning Harry Lucas, a colored man, who has twice tried to commit suicide in the past two weeks, it is thought from the effects of cocaine, was sent away from the town, stated going on his way to Philadelphia. It is hoped in getting the man away from his former associates that he will become more rational, and be able to stop the use of the drug, if that is what is causing his trouble.

Lucas was taken up yesterday afternoon by Officer McEldowney at about 1 o'clock in the afternoon. The man told him that he had taken something and wanted to go to the lockup to die. He was placed in a cell and left there. At about 7 o'clock last night it was discovered that he was trying to commit self destruction by cutting his throat, having succeeded in the time that he was in the place in tearing a strip of sheet iron off his bunk, and having sharpened a side to a knife-like edge. The instrument was taken from him by Chief of Police Albright.

All night long he raved, being watched however that he did not in some other way succeed in his desire to kill himself. This morning Lucas was rational enough and was willing to leave town. He was placed on a Pittsburg car by Chief of Police Albright.

On Sunday night a week ago Lucas was picked up on Fifth street, in practically the same manner. He spent the night raving in his cell, and tried to hang himself, by fastening his coat to a bar in his cell, and then tying it around his neck. It seems to be his only thought when in his ravings to commit self destruction. When in that condition he will pay no attention to any one except Chief of Police Albright and his former employer, Thomas Younger.

It is said that cocaine is the cause of the man's condition. It is alleged that several colored people of this place use the stuff, and that considerable trouble is caused from it. It is understood that they do not get it in Charleroi however, although one is said to have made a proposition to a local druggist to sell the stuff on commission.

Fire Cause of an Increased Force

Webb, Herron Plant Takes Over Contracts of Capell Company.

As a result of the fire at Monongahela during a night, the latter part of last week, by which the Capell Fan and Engineering company's plant was damaged, an extra force has been added to the Herron, Webb Machine company, where many of the contracts are being filled. The force is working day and night.

The Herron Webb people are installing some new machinery, and within a week expect to have things in the best of shape for a long and continuous run, and will quickly fill the contracts, re-let to them by the Capel Fan and Engineering company.

COCAINE FIENDS IN THIS PLACE

Said Some Colored Men Are Using Drug to Great Excess

Trouble is occasionally caused in this place it is said through the use of cocaine and it is understood that the shooting affray on the railroad Saturday night was caused through the drug. It is said that recently a colored man of this place went into a local drug store and made the proposition to the proprietor that if he would furnish cocaine, he would sell it for him on a commission. The druggist absolutely refused to accept or consider the proposition, and threatened the man with arrest. He made his exit, and has not been seen since. The above would go to show that some colored men are users of the drug in this town, but evidently have trouble in securing it, hence the proposition. It is up to the officers of the valley to watch the stores carefully and ascertain which is handling the stuff to a great extent.

SPEED LAWS NOT TO BE ENFORCED IN CONTEST

Inquiries are now being received from all parts of Western Pennsylvania, Eastern Ohio and West Virginia requesting further information concerning the automobile three-days endurance contest of the Pittsburg Chronicle Telegraph and Gazette Times to begin and end in Pittsburg, April 28, 29 and 30. The laying out of the route is now about completed and word is being received daily from the authorities in charge of the surrounding towns that the towns will be thrown wide open to the contestants the day they pass through. Speed laws will not be forced on this particular occasion so as to give the driver who happens to lose time a chance to make up between checking stations.

GOOD EVENING.

A thingof beauty is a joy for ever:
Its loveliness increases; it will never
Pass into nothingness; but still will keep
A bower quiet for us, and a sleep
Full of sweet dreams, and health, and quiet breathing.—Keats.

In a Queer Mixup.

It appears that the Charleroi borough has got into a bad mixup, and all from a lack of general knowledge of the Constitution of Pennsylvania. This state has a statute that says plainly that voting for offices of the borough shall be by voice, yet in the past this borough has elected them by secret ballot. As a result there are now two attorneys of this place who claim themselves to be legally elected solicitors, and doubtless both will protest their election as being valid. What the result will be cannot be conjectured, for the case has many technicalities, which can only be solved by a thorough hearing and reading of the law bearing on all phases.

Exterminating Bad Band.

It is to be hoped that the band of counterfeiters that has been flooding this part of the country with spurious coin in the past few weeks can be broken up and the ones secured who have thus been defrauding the people. It is a well known fact that there was formerly in this section a well organized band for the making of bad money, which they would have passed off in Charleroi and elsewhere, but the present organization is hardly the same. Nevertheless the police officials should make thorough investigations in their separate precincts, and exert every effort to locate the daring band.

Better Organization

Nothing could please more those who understand the situation thoroughly than to have the miner's districts divided as suggested by President Feehan of this district. "In union there is strength," is the well known motto of all labor organizations, then why would not the same apply, in the following terms, "in organization there is strength." In this case it would, if in no other. The locals would be given the power to arbitrate differences themselves, and thus be spared the expense incurred under the present mode of sending delegates to the district President or having Board Members present at their meetings. The miners would be greatly benefitted by the sub-division.

Electric Sparks.

Inaugurations and presidents are only incidents in the life of the Secretary.

The suffragette movement is merely an illustration to womans unwomanity to man.

The President shows a commendable disinclination to be side-tracked by the Stand-pat express.

In New York they are using babies as collateral for loans. Another argument against race suicide.

Do you remember that a year ago there were many who believed that Mr. Taft wouldn't be nominated?

Times are certainly picking up when an Ohio man is able to place a $20 chattel mortgage on his cat.

Since the beginning of the new Administration our hens are laying twice as well as formerly.

Vulgarity is amusing only to the vulgar and they are not worth amusing.

Debts are saddled on posterity because posterity is not on the spot to object.

An American bride of an Englishman finds is hard to keep warm in London. Why not put on a few more diamonds?

There is some satisfaction that the government escaped from the Standard Oil trial without being fined $29,000,000.

The New York blind man who carried one child and led two others down the stairs of a burning building furnished an evidence of affliction serving a useful purpose. He probably made better success of going through familiar building in the smoke than a sighted person could made.

At the same time we have not heard of any loud and insistent demand from the public for another steel trust. The people at large ven by a severe exercise of memory recall that in several cases where a business interest has been consolidated into two combinations the result followed that they swallowed each other.

Of course, when spring came snow had to appear out in Yellowstone Park. But as well-founded tradition gives us an "April cleaner" it may be just as well that vegetation is not too much encouraged in advance. The average date of last killing frost in this latitude is May 5th to 10th.

Those who are trying to abolish that famous line known as Mason's and Dixon's might find it wise to call in the expert aid of fashion-makers, who are now abolishing the older and more popular waist line.

Mr. E. H. Harriman having been advised to adopt plain and quiet living for the benefit of his health it is hoped that he will cut down his diet to swallowing not more than one railroad per meal.

There is a greater tendency than ever to the typographical error of spelling the Missouri statesman's name as Chump Clark.

EXTENSIVE REPAIRS AT CATSBURG MINES

Monongahela, March 23.—Repairs which will amount to several thousand dollars were started at the Catsburg mine yesterday when the raising of the rail tipple was commenced. A new river tipple has been about completed and another rail tipple will be erected. Plans for the work have been made and bids asked for.

A Cowboy's Girl.

"A Cowboy's Girl" which comes to the Coyle theatre, March 30, is one of the few western plays ever written by a man who thoroughly understood what he was writing about. Mr. Pierce E. Benton, the author of "A Cowboy's Girl," spent a great portion of his life in the cattle country of Texas and knows the old time cattleman, his ways, expressions, likes and dislikes, as well as he knows the alphabet. These little things which are lacking in most plays of the west are strongly emphasized in "A Cowboy's Girl" and add much to the realism of the production.

COUNCIL TO MEET TONIGHT

It is thought that the resolution calling for the auditing of the books of the borough the first of March instead of the first of April, will be passed at the meeting of council tonight. The change in the auditing would be very agreeable both to the auditors and to the members of council.

It is likely that the matter of the Holland bill for alien taxing will come up and a motion be put through for the advocating of the bill. Among other important matters that are on the table are the ordinances for the governing of the sale of milk in the borough, and the grade for the sidewalk on Lincoln avenue between First and Second streets.

Speers

Speers, March 28.—The little six [illegible] Henry Lewis of North Belle Vernon, died Thursday of membraneous croup, after an illness of only a few days. Interment took place Saturday.

Arthur E. Warrensford, of Belle Vernon, was in Uniontown, serving on the jury this week.

J. C. Bernhard, of Charleroi was a caller here last week.

The result of the revival services recently closed at the M. E. church here is very satisfactory to the people of this little town, and to the pastor, whose untiring efforts were responsible for the great interest manifested during the four weeks services. Every night, with one exception, this brilliart young minister preached to crowds of attentive listeners, and the series of meetings were the direct cause of a wonderfully increased attendance at Sunday school services, also. The Rev. Mr. Soiter is justly proud of his work, and the townspeople are unanimous in their praise of the unprecedented achievements made by the popular young minister of "The Little Church on the Hill."

SIGNIFICANCE TO MOVEMENT

George Jenkins a former county surveyor, with a force of men is today at work surveying a portion of the road between Monongahela and Finleyville, and it is thought that special significance is attached to his movements. It is thought that Mr. Jenkins is working for petitioners for a new and improved highway between these two towns and his presence there is a suggestion that the wish of the petitioners is to be fulfilled.

MEETING AT FIRST PRESBYTERIAN CHURCH

Beginning Wednesday of this week and continuing until Friday week there will be services at the First Presbyterian church. Visiting ministers will be present during that time, and assist.

[illegible] IN HER SYSTEM

Every Woman Should Read This.

The number of diseases peculiar to woman is such that we believe this space would hardly contain a mere mention of their names, and it is a fact that most of these diseases are of a catarrhal nature. A woman cannot be well if there is a trace of the catarrhal germs in her system. Some women think there is no help for them. We positively declare this to be a mistaken idea. We are so sure of this that we offer to supply medicine absolutely free of all costs in every instance where it fails to give entire satisfaction or does not substantiate our claims. With this understanding, no woman should hesitate to believe our honesty of purpose, or hesitate to put our claims to a test. There is only one way to cure Catarrh. That way is through the blood. You may use all the snuffs, douches or like remedies for years without getting more than temporary relief at best. Catarrh is caused by a germ. That germs are carried by the blood to the innermost part of the system until the mucous membrane is broken, irritation and inflammation produced, and a flow of mucous results, and you can probably realize now why it is to attempt to cure such an ailment unless you take a medicine that follows the same course as the germ or parasite.

Rexall Mucu-Tone is scientifically prepared from the prescription of an eminent physician who for thirty years made his specialty Catarrh, and with this medicine he averaged 98 per cent. of cures where it was employed. No other remedy is so properly designed for the ailments of woman. It will purify and enrich the blood, stop mucous dicharge, destroy all germ matter, remove all impurities from the system, soothe, heal and strengthen the mucous tissues, and bring about a good feeling of health and strength.

We want you to try Rexall Mucu-Tone on our guarantee. If you are not benefitted, or for any reason not satisfied, simply tell us and we will hand back your money. Rexall Mucu-Tone comes in two sizes, 50c and $1.00. John W. Carroll, Charleroi, Pa.

HELD FOR THEFT OF A REVOLVER

Grover Friend of Washington was this morning held for court under bail of $300 to a charge of larceny of a revolver from a relative, J. H. Krepps, of McKean avenue Charleroi. The hearing was before Justice Wilson. Friend visited here on the 12th of the month and it was while here that he committed the theft. He plead guilty to the charge. Friend was arrested in Washington last night, by Constable Stablein of this place.

H. Porter has left for Tarentum where he will visit friends.
